Overview

The Cisco Aironet Power Injector (AIR-PWRINJ4) increases wireless LAN deployment flexibility of Cisco Aironet Access Points by providing an alternative powering option to local power, inline power-capable multiport switches, and multiport power patch panels.

The single-port Cisco Aironet Power Injector provides 802.3af power and data signal, sending both to the Cisco Aironet Access Point.

The power injectors provide up to 15.4 W over the unused wire pairs of a Category 5 or better Ethernet cable, supplying enough power for a distance of 328 ft. (100 m) on the Cisco Aironet 1140/1250/1260/3500/1600/1700/2600/2700/3600/3700 Series

Quick Specification

SKU	AIR-PWRINJ4
Networking standards	IEEE 802.3,IEEE 802.3ab,IEEE 802.3u
LED indicators	Yes
Dimensions (L, W, H)	7 x 6.5 x 2.3 inches

Specific Data Sheet:

Product Number	AIR-PWRINJ4
Co2 Savings	31.19
Ethernet interface type	Gigabit Ethernet
Ethernet LAN data rates	10,100,1000 Mbit/s
Power over Ethernet (PoE)	Yes
Networking standards	IEEE 802.3,IEEE 802.3ab,IEEE 802.3u
Compliance industry standards	802.3af
Colour of product	Black
LED indicators	Yes
Certification	FCC
Ethernet LAN (RJ-45) ports quantity	2
